

The original problem is below. In this case the title is important.

One, Two, Three, Four, Five, Six, Seven, Eight

So the pattern consists of the first letter in the written form of consecutive numbers. Thus the next two letters should be N, T for Nine and Ten.

As Easy As 1-2-3

Find the next two letters in the following pattern:

O, T, T, F, F, S, S, E
